"Down To Me"

Visit "[Down To Me](#)" on MotoLyrics.com

in the bed
my chest is lead
my feet are cold and bare
on the wall it says
where we'll be next week
but I hope we can last till then
but I hope we can last till then
in our hearts we can't last till then
hold on

in the day
it's so obvious
and I pray you will look at me
and I saw that you're a mess
and I sit here biting my lip while you pass
while you pass

all the way
down to me
all the way
down to me
can you get down to me
can you get down to me
can you get down to me
can you get down to me

I'm so far away
face down in my head
face down in my head

all the way
down to me
all the way
down to me
can you get down to me
can you get down to me
can you get down to me
can you get down to me
