You came to me / at a special time
Maybe with you / in my life
I may begin to appreciate / the prettiest things in life
I know we'll learn many things / when the future days
go by
And a wonderful time / together awaits us.

Maybe you will learn from me, maybe I will learn from
you
Time will pass and it'll find ourselves so close; you
own my heart.
My piece of heaven, I just can tell / how much I will love
you
We'll do the best to take care of you, / you are a
treasure to me.

At the beginning of the way,
Everything seems pleasant / but if time played tricks on
you, / I'll be there, /
Forever with you.

Maybe you will learn from me, maybe I will learn from
you
Time will pass and it'll find ourselves so close; you
own my heart.
