

Betrayed "Addiction"

Visit "[Addiction](#)" on MotoLyrics.com

You pushed too hard, you fucking crossed the line
And uncovered a hunger you can't satisfy
Now you're lost in a haze, you just can't see
That a fucking substance won't set you free

[Chorus:]

Keep your drugs and alcohol I don't need them
Keep your drugs and alcohol I don't need them
No, no
Keep your drugs and alcohol I don't need them
I said I don't need them
We said we don't need them

You're losing respect, you're fucking wasting your life
Just try to see yourself through these eyes man
You're letting addiction get the best of you
So fucking catch your breath and try to see it through

[2x chorus]
