He needs me
He doesn't know it but he needs me
And so no matter where he goes
Though he doesn't care
He knows I'm here

He needs me
I ought to leave him but he needs me
I guess it isn't very bright
Just to tag along
But right or wrong, I'm here, I'm his

And I'll be a friend or a lover
Because my one ambition is
To wake him and make him discover

He needs me
I've got to follow where he leads me
Or else he'll never know that I need him
Just as he needs me

And I'll be a friend or a lover
Because my one ambition is
To wake him and make him discover

He needs me
I've got to follow where he leads me
Or else he'll never know that I need him
Just as he needs me
