If you see me on the street  
Looking like I ain't slept in a week (hey) don't worry  
baby.  
Find me closing down the bar  
Catch me crawling to my car (hey), just look the other  
way.  
And if I'm by myself with a twisted face  
Filling up on comfortable space.

Never mind me (I'll be fine just talking to myself)  
Never mind me (sitting all alone inside my personal  
hell)  
I'm going just fine, never mind me.

Well if you just can't comprehend why I'd be kissing  
your best friend (hey)  
Just keep on walking baby.  
If you see me sitting on the edge of a twenty story  
ledge (oh)  
But don't try to save me (no)  
I'm probably looking at the sky just trying to find the  
reason why (why)

Never mind me (I'll be fine just talking to myself)  
Never mind me (sitting all alone inside my personal  
hell)  
I'm going just fine  
Never mind me.  
Don't remind me  
I'm not crazy don't rewind me then replay me I'm just  
fine.  
Never mind me (I'll be find just talking to myself)  
Never mind me (sitting all alone inside my personal  
hell)  
I'm going just fine  
Never mind me hey I'll be fine just talking to myself  
never mind me (ooo)  
(Sitting all alone inside my personal hell)
