Got the right house  
Got the wrong address  
I should have my head examined  
I finally found the difference between  
A kiss and germ warfare  
I siphoned Gasoline

You eyes your ears your mouth your nose  
Your arms your legs your heart your soul  
Touch me touch me touch me touch me

My body craves your touch

a snapshot of you  
tucked in my shoe  
so close and yet so far from you  
if mooses truly parted the sea then can i quit smoking  
My miracles run deep  
Yes they do

Chorus

i carve you  
i crave you  
i crave you

chorus
