### "Self Worth"

So many headlines, so many lies  
What in the world does it take to survive?  
So many headaches, negative views  
I'll tell you what the people could do...  
SELF WORTH - Brace yourself!  
SELF WORTH - You hate yourself!  
SELF WORTH - And the hand that you were dealt!  
SELF WORTH - Because I'm value driven!

So much stress, so much to do  
Problems to solve but they don't have a clue  
So much depression, directionless too  
What can we find that will see us through?

SELF WORTH - Brace yourself!  
SELF WORTH - You hate yourself, hate your-fucking-  
self!  
SELF WORTH - And the hand that you were dealt!  
SELF WORTH - Because I'm value driven!

GO!

Yeah, what in this world does it take to survive?  
So many headaches, so many lies!
