"Without you"

Here we go again
Down the same road again
And it feels like everything's changing
You can blame me
For the way things used to be
I know all the games that you're playing

I'm tired of your second chances
And dealing with your selfish ways
And I'm thru making up with you
I don't care what you have to say

I'm on my own, I hope you know
That I'm better off here without you
I'm on my own, I hope you know
That I'm better off here without you

No need to admit
Just as soon as I was whipped,
You started taking full advantage
Happened to my friend
Said she'd be there 'till the end
I guess things are worth fighting for

I'm tired of your second chances
And dealing with your selfish ways
And I'm thru making up with you
I don't care what you have to say

I'm on my own, I hope you know
That I'm better off here without you
I'm on my own, I hope you know
That I'm better off here without you [2x]
Without you.
