

Better Than Toast "Gone"

You and I are going nowhere
It's a shame she said
A shame she said it's gone
But if you call me with something you need it's a shame
You said it's gone

Gone, you'll miss is when you need it and it's gone
It's never coming back
Cause it's gone
You'll miss it when you realize that it's gone

It's gone

I used to care, I used to swear
I felt it, you never felt it
You never felt a thing
That's the difference between me and you
I thought I knew but I just turned out wrong

Say goodbye cause it's gone
Say goodbye cause it's gone
