

## **Better Than Toast "Move Away"**

Visit "[Move Away](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Wait a minute, say it loud  
Just clear your throat and let it out  
Just slow down, just slow down  
Hear that music in your head  
I put it there just like you said  
Let's get down, let's get down

We've crossed the line from hello  
Finding out just where to go  
We've crossed the line

Just move away away  
Move closer closer next to me  
Just move away away  
Move closer closer to where you should be  
Just move away  
I need you like the air I breathe

Just move away away  
Move closer closer next to me

After you're done just let me go  
Or bring me back and let me know  
Just slow down, just slow down  
Say it's been fun, let's hear you loud  
I need you too, just tell me know  
Let's get down, let's get down

I'm lost like secrets and habits  
You've got bad news well let's have it  
You're always right to keep me wrong  
Let's just move on
