I wanna play a game
Don't wanna do the same
These feelings are so strong

Love at first sight
Love at first bite
Mm, I could do this all night long

Close the door
Close the door now, baby
Come and lay here next to me

Take it slow
Nice and slow now, baby
Wrap your arms around on me

You can't rush me
You must trust me
Just let me take my time

I'd like some music
Some music mellow
Come, rest your head upon my pillow

I can't get enough of you, not of you, babe
I can't get enough of you, you, you, you

Close the door
Close the door now, baby
Come and lay here next to me

Take it slow
Nice and slow now, baby
Wrap your arms around on me

I am shy, that's no lie
I wonder sometimes how I get by
Is this love, or poppyslush?
You know exactly what I like

Do you think of me?

Do you miss me?
Do you think of times
mm, when you kiss me?

I'm your hun
Your honeybun
Do you think of times
mm, when we have fun?

I can't get enough of you, not of you, babe
I can't get enough of you, you, you, you

Close the door
Close the door now, baby
Come and lay here next to me

Take it slow
Nice and slow now, baby
Wrap your arms around on me

Close the door
Close the door now, baby
Come and lay here next to me

Take it slow
Nice and slow now, baby
Wrap your arms around on me
