Resting in your arms
I have found my home
Thank our lucky charms
Seldom feel alone

We should go away
It would be such fun
Make a wish today
Blowing out the sun

Tonight I'm runnin' on gasoline
Tonight I'm gonna escape the scene
Tonight has finally come

Nothing on earth could ever split us in two
Always think of me, I always think of you and me
Meant to be
We're beautiful

Nothing on earth will ever rip us in two
Always think of me, I always think of you and me
Destiny
We're beautiful

Protect you from harm
I am always there
Thank our lucky stars
Never our nightmares

Make them go away
Happiness will grow
Evaporate the pain

Burnin' in your soul

Tonight we're runnin' on gasoline
Tonight we're gonna escape the scene
Tonight has finally come

Nothing on earth could ever split us in two
Always think of me, I always think of you and me
Meant to be

We're beautiful

Nothing on earth will ever rip us in two
Always think of me, I always think of you and me
Destiny
We're beautiful together

Tonight is finally here

Nothing on earth could ever split us in two
Always think of me, I always think of you and me
By the sea
So beautiful

Nothing on earth will ever rip us in two
Always think of me, I always think of you and me
Destiny
We're beautiful together
