"How Little We Know"

Visit "[How Little We Know](#)" on MotoLyrics.com

Who cares to define what chemistry this is
Who cares with your lips on mine how ignorant bliss is
So long as you kiss me and the world around us
shatters
How little it matters, how little we know

How little we know how much to discover
What chemical forces flow from lover to lover
How little we understand what touches off that tingle
That sudden explosion when two tingles into mingle

Who cares to define what chemistry this is
Who cares with your lips on mine how ignorant bliss is
So long as you kiss me and the world around us
shatters
How little it matters, how little we know

So long as you kiss me and the world around us
shatters
How little it matters, how little we know
How little we know, how little we know
