Your scars were still showing  
When I first met you, baby  
From all the wrong  
She had done to you

Then I came along  
And applied a little loving  
Slowly but surely  
I brought you through

But now she's back  
To rekindle that old flame  
She's got a different angle, baby  
But she's playing the same old game

Baby, don't be a victim of a foolish heart  
Don't let her lies get next to you  
She's just trying to tear us apart  
She's trying to make me her victim too

Now I know she comes round here  
Every time I leave (look out, baby)  
'Cause she knows she's still  
On your mind (got her on your mind)

Even a wise man jumps in misery  
Somewhere down the line (listen, baby)  
But only a fool would jump  
The second time

Our affair is growing  
Stronger every day  
Don't let her come and  
Steal our happiness away

Baby, don't be a victim of a foolish heart  
Don't let her lies get next to you  
She's just trying to tear us apart  
Trying to make me a victim too

Oh, baby, don't be a  
Victim of a foolish heart

Don't let that girl get next to you  
She's just trying to tear us apart  
She's trying to make me her victim too

Don't let her do it  
Don't you be a victim of a foolish heart  
Don't let her lies get next to you
