Now you take a look around. and tell me now just what you see well i don't think you even know. where to begin tonight, and now i know that. someday you will be just fine, well i hope not. i don't think you saw this coming. from so far away (let the drain out begin tonight) tell me now, tell me now. where should i go from here to take a load off, ring out my mind from you. somehow somewhere we'll make it through. where this will end i can't tell you. i don't think you saw this coming. from so far away (Let the drain out begin tonight) tell me now, tell me now, where should i go from here. take this on and on again i don't think this can end. on and on again (drain out) you know you know you won't be so lucky (let it drain out, let it drain out)
