"By My Side"

Tonight I saw an eclipse of your smile within my own
reflection

On your look, so beautiful then

A tear ran down my face, all my memories erase

Oh, why'd you have to leave my side

Oh, why do all the rivers flow into the ocean?

And why does all the love in the world come strait from
the heart?

And why does all the pain I feel come from deep
inside?

Oh, all those questions I could have answered ... if you
were by my side

Maybe something made me look at you,

Maybe something made me do what I had to do what I
had to do

Maybe something made me talk to you,

Maybe something made me do what I should do

I want you by my side

(I want you by my side)

(I want you by my side)

Now everyday the pain I feel slowly fades away

And all the memories of you and me are always here to
stay

What I'm asking, girl, is one more chance to let me in
your life

Oh, girl, if you give me one more chance ... then I could
be right by your side

Maybe something made me look at you

Maybe something made do what I have to do, girl

Maybe something made me talk to you

Maybe something made me do what I should do

I want you by my side

(I want you by my side)

(I want you by my side)
