Oh, I will be yours

I don't know what to do
I can't believe it's true that
You can make me feel this way
I see it in your eyes
It made me realize
There's something that I've got to say

Refrain:

I just wanna tell you that I'm sorry
For all the things I've done to make you worry
And all the time I cared for you from the bottom of my
heart

Chorus:

I will be yours if you'll be mine
I will be there 'til the end of time
I will be with you until the day that I die
I'll be yours, I will be yours

I've been around the world
And seen a lot of girls
But no one can compare to you
It's really plain to see
That you belong to me
Cause you're the only one I need

Refrain

Chorus

I will be yours (2x)

Oh, I will be yours

Chorus

I will be yours (2x)
