This is for the lovers
Strictly for the lovers, yeah
You got someone you wanna get close to
Then get close to this
Just to be close (Yo, drop the verse)
Like a flower to a tree
That's how close I wanna be
To your heart
(Baby, to your heart, heart)
Like the stars to the night
And daytime is to light
We'll never part
(We'll never part)
I want you to be
The only one that I see
'Cause I believe it's our destiny
Just to be close, just to be close
It's the only thing that I wanna do
(That I wanna do, ooh)
Just to be close, just to be close
Just to be close to you (closer to you)
Just to be close
So lonely is the night
Without you to hold me tight
(I wanna hold you closer)
I need you
(Baby, hold me closer, closer)
My life would mean nothing
Without the joy you bring
To me
You know, you know, you know
There will never (never be)
No one else for me
You are like a dream
That became reality
Just to be close (so close), just to be close
It's the only thing that I wanna do
(That I wanna do)
Just to be close (close to you baby), just to be close
Just to be close to you (baby, baby)
Just to be close

I'm gonna give you all my love
(I'm gonna give it to you, I'm gonna give it to you)
All my love
All my love
(I'm gonna give it to you, I'm gonna give it to you)
All you want
(To be close to you)
To be close to you, close to you
Just to be close (just to be close), just to be close (is all I
want)
It's the only thing (is the only thing) that I wanna
do(That I wanna do)
Just to be close (just to be close), just to be close (so
close)
Just to be close to you (and hold you)
Just to be close
I don't want to be alone
I'll never never ever gonna let you go
Just to be close to you
I don't want to be alone, girl
I'll never never never ever gonna let you go
Just to be close
There will never be (never be)
No one else for me
You are like a dream
That became reality
Just to be close, just to be close
It's the only thing that I wanna do
(That I wanna do)
Just to be close, just to be close
Just to be close to you
(I just wanna get close to you)
Just to be close
I just wanna get close
To you
