Darkness falls
I thought I heard you call
Or was it just a dream?
I'm a little scared knowing you're out there
So far away from me

Its been so long
Since you've been gone
Every day I miss you more
Now I wanna know
Why did you have to go?
What were you looking for?

And I hope you find your way,
But I can't wait to say

You're home now, not alone now
These arms are here to hold you
Don't need to be afraid
So come in cause I've been waiting for the moment
To open up this door and I know that it's not much
Welcome to my heart
Welcome to my heart
Welcome to my heart
Welcome to my heart
Welcome to my heart

So you lost your way but that's yesterday
And I don't care where you've been
Cause every step you've taking since you left
Has brought you back again
And I hope you see it clear
My love has always been right here

You're home now, not alone now
These arms are here to hold you
Don't need to be afraid
So come in cause I've been waiting for the moment
To open up this door and I know that it's not much
Welcome to my heart
Welcome to my heart

Welcome to my heart
Welcome to my heart
Welcome to my heart

I'm glad you found your way
And I hope you are here to stay
Ooooooh

You're home now, not alone now
These arms are here to hold you
Don't need to be afraid
So come in cause I've been waiting for the moment
To open up this door and I know that it's not much
Welcome to my heart
Welcome to my heart
Welcome to my heart
Welcome to my heart
Welcome to my heart ...
