I go down to the water! You meet me there
I get into the river! You carry me under
And I'm drowning in love the love You give
Realizing now I've got to die to myself to live

Chorus

Sometimes I get carried away
Sometimes I get carried away
I get carried away

I kneel down at the mountain of doubt and fear
When I finally surrender, You carry me over
And I'm floating so high
In the hollow of Your hand
I feel the wind, I see the light

And I begin to understand

Chorus

Sometimes I get carried away
Sometimes I get carried away
To a holy place
Sometimes I get carried away
Sometimes I get carried away
To the Throne of Grace

Carried away
Just a little taste of heaven
Carried away
Just a little taste of heaven

Chorus

Just a little taste of heaven
Just a little taste of heaven
