# Between Thieves
## "Simple Truth"

I tried to find my way to You
Between philosophy and truth I got confused
Scattered thoughts and clouded mind
No sign of hope, no clarity of any kind
Now I stop, and see You in full view
Seems all this time You were looking for me, too
Chorus
Through the eyes of love You see me
Far down below and far above
And everywhere in between
Simple truth is
You have always been

And always will be watching me

I tried to hide myself from you
Sick of my sinfulness
I thought You would be, too
But in turn You rendered grace
Seeing all that I had done
You still forgave

Chorus

You are the God of mercy
You have set me free
You are the God of love
Always watching from above
Always watching from above

Chorus
