

Between Thieves "The Spring"

Visit "[The Spring](#)" on MotoLyrics.com

Gaze into the water
See a face I recognize no longer
Gone so far from who I am
Need to live beyond this life
Remove the veil of this disguise
Time to trust in You again
Standing over the waterfall
Leaning over the edge
Chorus
I fall into the spring that heals the wounds
Quench the thirst with heavenly glory
Feel the water rushing over me
Reveal the scars that tell the story

Gaze into the water
See a face I despise no longer

Come so far from where I've been
Your image draws me nearer
Show me how to see you clearer
Savior, wash away my sin
Standing over the waterfall
In the light of the truth

Chorus

Longing for perfection
When I see You in my own reflection
Thirsty to be sanctified
Now I come to You unworthy
Prince of Pardon, Lord of Mercy
In You I am baptized

Chorus
