[scream]

Today
I stood against all that I am
tried relive a moment from long ago
I said "Hey, we bleed"
Aint everyone as unique as I?
Took off all the costumes I put on since I was born
and I felt LOVE
Spread through my body oh
Took my last breath
Let there be no...

At last
I took a last look at all I ever was
suddenly all I saw was my Mother's face
and I started thinking
of whether I did or didn't die
All my life I've been living by foreign codes
(Thats Right)

Three whole weeks of night
Took all the joy from my home
Everything once so bright
No longer seems to shine on
Cut it once and for all
Cuz it didn't seem to go there
God save me now
I'm on my way to nowhere

Traded all my innocence for Black
And I cannot Wait 'till You turn away
You will turn and find me Black Inside
Hell I left to come back
still i will not hand you my life today
You will turn and find me Black Inside

Yeah
Yeah-heh
Let me turn away
Yeah-heh
Yeah-heh

(Damn Just Go With it)

Traded all my innocence for Black
And I cannot Wait 'till You turn away
You will turn and find me Black Inside
Hell I left to come back
still i will not hand you my life today
You will turn and find me Black Inside
(Turn Around but I'm Black)

Traded all my innocence for Black
And I cannot Wait 'till You turn away
You will turn and find me Black Inside (Black Inside)
Hell I left to come back
still i will not hand you my life today
You will turn and find me Black Inside
