Walk on this world  
And this shit will resolve in me  
Killing all people alike  
And we'd cover ourselves with brains  
With brains  
It pains  
The way I see it  
And pure semetric demise  
I will find  
In your own edge  
Accompny me, my edge

Needless to say I was dead to begin with  
I can't belive I'd be saved...  
It takes needles & needles & nothing can't take that  
cold fear from my eyes...  
I know I'm better off.

Want to be alarmed  
At every time you take swing  
At this colourful sin,  
Full of lies -  
You will find  
All this hate  
To reside deep inside in my pride

Took so much - It's over  
We can touch bases at last

I whitness all this shit from levetation  
Damned fuckers crucify me  
Just for I fucking display all your other fucks invisible  
wounds?  
FUCK!  
Look through my eyes & I'll be  
T! oo much for you to sieze & you could die for a touch  
And sub\_sonic deafning noise will slice through your  
ears  
And redeem what is mine  
For this one time - I'd do it again, if I could  
Don't forget it is my type which keeps your kind sane  
Could'nt shield my eyes from this shattering rain

& now I don't feel awake while I'm running away from  
the pain...  
& now I can't sleep while I'm cleaning myself of the  
puss...  
& needless to say I was.
