Feel the flavor for your feet

Everybody need a place to chill  
Gotta stop the world standing still  
Don't you know I got a place to go? I tell ya  
Funky people, let me come back to ya  
Understand we got the stuff to move ya  
Anybody with the funk oughta know

So you don't have to play around  
Take someone you love  
Show them where it's at  
'Cause there's a time for getting on  
Time to feel the flow  
Like we used to know, and can we

Keep the flavor of the old school  
See what happiness we're bringing  
Keep the flavor of the old school  
Everybody's got that feeling

Keep the flavor of the old school  
See what happiness we're bringing  
Keep the flavor of the old school  
Everybody's got that feeling, that feeling

Keep the flavor for the babies growing  
Pass it on so we can keep them knowing  
That positivity is going on, I tell ya  
I think about it with your head in motion  
Funky music ain't the strangest notion  
When you feel it in your soul

Feel the flavor for your feet  
'Cause it's the one to make you move  
Feel the flavor on the street  
This is the one to make you groove
