Long time gone away from me  
I knew that you'd return  
I've gone through this many times  
By now, you'd think I'd learn

That you'll be coming back again  
Come home and turn the key  
Then we will dance and we will sing  
If only you would come with me

Oh, baby

[CHORUS]

I'll make you music  
I'll give you sunshine  
Why don't you come along  
We'll be together, happy forever  
Singing our own sweet song  
Oh, I'll make you music  
Lots of fine music  
Just like we always do  
And I know you love me  
You really love me and  
Baby, I love you too

When I'm with you  
I can feel a burning heat inside  
You can go away from me  
But you can never hide

Love is strong and you'll return  
No telling where or when  
So stay while and watch me smile  
It's so good to have you home again

Oh, baby

[Repeat CHORUS 3x to fade]
