Visit "[Executed Doom](#)" on MotoLyrics.com

Doom is coming to you

Staring with your headless gaze
I can't forget your face
Staring with your headless gaze
Now your head is

Ripped away from your limbless body
Now you'll bleed for me
Just bleed for me

You're not a friend to me
I just want you to see
You're just an enemy
And I just cut away
Who needs a guillotine?
This cut won't be clean
Exposing arteries
Just a headless daze

Doom is coming

Burn your fucking head away
The other half will just decay
