

Beverly Hellfire "The Dark"

Visit "[The Dark](#)" on MotoLyrics.com

Your life is at an early end
The suffocation will not end
Resting in this unmarked grave
Your muted voice just carries on in pain

Darkness fills the life you live
The lifeless bodies are your only friends

They walked away on this day
They left you in this wooden box with no light of day
They walked away with nothing left to say
They promised that they'd come for you but slammed
the lid closed

Save me I am not dead
Someone save me I am not dead

Beating on these walls that surround my unknown fate
Trying to escape this cold dark place
No ones coming to help you
Your god is not the way or truth

The dark is cold, the air is low
My eyes just close but I will not fall

This is not my time
I am still alive
Can someone hear me?
Can someone save me?

Someone save me please, I am not dead
