In my life I have but one obsession  
It consumes my thought both night and day  
It shows in everything I've done  
The will to be a number one  
That's just how I pray  
I've gotta run..

Faster than the lead  
Just can't stop, can't go slow  
I've gotta drive beyond full speed  
Just can't stop still I know  
No matter what you desire, how much you pursue  
Well, it all comes to you

Mama says I gotta learn a lesson  
From those who crash and burn and fade away  
She tells me there's a higher hand  
Presiding on a master plan  
So what's in store who can say?  
So I try to run

Chorus

Possibility are infinite  
I'm not the kind to wait  
Maybe all the things you really need  
To choose  
What my Mama said  
But I've gotta run..
