[Saukrates]

I'll be your sugar daddy

Yo

"Party party"

Ca-ca-ca-ca-can you feel it? Nothing can save ya

From the money run, getting those papers

Or from catching the vapours

No chance for miss chances or mistakers

But you hun you get new ones

Checkin' out the way you and your crew spun

Into the, spot I love a plot that unfolds in front of these eyes

I want ya, to relate to fake 'cause when I taunt ya

I'm leaving you with words that will haunt ya

Give me two minutes to get in it with a chick

I take two hours reaping the benefits

That's for real (yo) so honey what's the deal

Let me know if you ain't feeling it

If you is then we four wheeling it

Plus, my dog's got your girlfriend kicking her butt

"Party party"

Can you get down whether or not giving a fuck

Type of disposition to hop into the truck

Who knows with a little bit of luck

We might let each other get a taste or a touch

CHORUS [Saukrates] (Female singers)

You coming with us (he making a fuss)

So what, it's nothing but a "party party"

You looking for love, but all you getting is lust

It ain't nothing but a "party party"

You coming with us (he making a fuss)

So what, it's nothing but a "party party"

You looking for love, but all you getting is lust

It ain't nothing but a "party party"

[Saukrates]

Yo, I'm night dreaming of becoming a "party party"

I know sometimes it seems odd to ya

Why nigga's always got to be starting up

Why them nigga's always got to be parking up

But check it, I know I ain't the first or the last
But your intuition is telling you to crash
I can feel it, I can feel it, I guess that's why
We all in the whip feeling hippy hippy fly
We all in the whip feeling the natural high
When we get to my crib, we going to give this a try right
She said 'nigga fly right, and we might'
Just put it down, all it takes is trust
I said 'what?' yes yes y'all, yiggy yes y'all
Waiting for the moment when I see your dress fall
If you're wondering what's happening next
Y'all it's triple X-rated, take a guess
"Party party" y'all

CHORUS

Life ain't nothing but a "party party"
Bitches ain't nothing but a "party party"
?KrunK beats be doing? "party party"
I love something just for the "party party"
We all got something for the "party party"
Life aint nothing but a "party party"
Bitches ain't nothing but a "party party"
Tricks ain't nothing but a "party party"

CHORUS X3

"Party Party" *repeated*
