Wohoao
I know that you
Treat me right
But still I think I gotta
Make u my next ex
Come on to the next
And I think you're nice
But I saw something else
That I like
And I think about
Making you my next ex
Come one to the next
Ooooh

To day when I wake up
You didn't look the same
As last night
And it just don't feel
Right anymore
I think
That we should break-up
There's no reason
To make-up
I won't fight
I'm just tired
And I need a change

Sorry boy
But u got me bored
And somethings
Catching my eye
I was only satisfied
For a little while
I gotta
Switch em out
Switch em out
Switch em out
Switch em out
Kick em out
Kick em out
Kick em out

Kick em out
Woahoooah, ooh

I know that you
Treat me right
But still I think I gotta
Make u my next ex
Come on to the next
And I think you're nice
But I saw something else
That I like

I really think I gotta
Make you my next-ex
Come one to-the next
Ooooh

[Kick Em Out Lyrics on]

You call me
Too frequently
I thought it was
So sweet
In the beginning
But now
You're too clingy for me
You don't put the seat down
You don't clean the house
How I like it, tryfling
That's reasining up
You're time's expired

Sorry Boy
but u got me bored
I gotta move around
If I ain't
Got a ring by now
That means
I'm not tied down
I gotta
Switch em out
Switch em out
Switch em out
Switch em out
(Ooh, ooh)
Kick em out
Kick em out
Kick em out
Kick em out
Woahoooah, ooh

I know that you
Treat me right
But still I think i gotta

Make u my next-ex
(next ex)
Come on to-the next
(to the next)
And I think you're nice
But I saw something else
That I like
I really think I gotta make
You my next-ex
Come on to-the next
Ooooh

Ooooh, ooh, ooh, ooh
Ooh ooh ooh, ooh ooh
Ooh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, ooh

I gotta
Switch em out
Switch em out
Switch em out
Switch em out
Kick em out
Kick em out
Kick em out
Kick em out
Woahoooah ooh

I know that you
Treat me right
But still I think I gotta
Make u my next ex
(Eeex)
Come on to the next
And I think you're nice
But I see something else
That I like
And I really think i gotta
Make you my next ex
Come one to the next
Ooooh
