wohoao
i know that you treat me right
but still i think gotta make u my next ex
I'm on to the next
and i think you're nice but i saw something else that i
like
and i think I gotta make you my next ex
I'm on to the next
ooooh

To-day when i wake up you didn't look the same as last
night
and it just don't feel right anymore
i think that we should break up
there's no reason to make up
i won't fight
i'm just tired and i need a change

Sorry boy but you got me bored
And somethings cathing my eye
i was only satisfied for a little while
i gotta switch him out, switch him out, switch him
out,switch him out kick him out, kick him out, kick him
out, kick him out
woahoooah ooh

i know that you treat me right
but still i think I gotta make u my next ex
I'm on to the next
and i think you're nice but i saw something else that i
like
and i really think I gotta make you my next ex come one
to the next
ooooh
[Next Ex Lyrics on]

you call me too frequently
i thought it was so sweet in the beginning
but now you're too clingy for me
you don't put the seat down
you don't clean the house how i like it, trifling

that's reason enough
you're time's expired

Sorry boy but you got me bored I gotta move around
if i ain't gonna ring by now
that means i'm not tied down
i gotta switch him out, switch him out, switch him out,
switch him out(ooh ooh)
kick him out, kick him out, kick him out, kick him out
woahoooah ooh

i know that you treat me right
but still i think I gotta make u my next ex
I'm on to the next (to the next)
and i think you're nice but i saw something else that i
like
I really think I gotta make you my next ex
I'm on to the next
ooooh

ooooh ooh ooh ooh ooh ooh ooh ooh ooh ooh ooh
ooh ooh ooh ooh ooh ooh ooh ooh...

i gotta switch him out, switch him out, switch him out,
switch him out,
kick him out, kick him out, kick him out, kick him out
woahoooah ooh

i know that you treat me right
but still i think I gotta make u my next ex (eeex)
I'm on to the next
and i think you're nice but still i see something else that
i like
and i really think I gotta making you my next ex
I'm one to the next
ooooh
