You're bad for me.
I clearly get it.
I don't see how something good could come from
loving you.
The death of me must be your mission.
Cause with every hug and kiss you're snatching every
bit of strength that I'm gonna need to fight off the
inevitable.
And its a heartbreaking situation I'm up in but I cant
control.

You're just like poison.
Slowly moving through my system breaking all of my
defenses with time.
You're just like poison, and I just dont get it.
How could something so deadly feel so right?
I'm not sure of what to do.
Its a catch twenty-two?
Cause the cure is found in you.
I don't want it but I do.
You're just like poison.
My affliction, I'm addicted I cant lie.
Kiss me one more time before I die.

You aint right, take me high, then that high, it subsides,
and my body flat lines.
Then you come to revive.
Wait, wait, wait, I'm alive, but how long will it last?
Will it all come crashing down?
How many doses am I needing now?
Whats the prognosis?
Will you be around?
Or am I just another victim of an assassin that broke my
heart down.

Baby, you're just like poison.
Slowly moving through my system breaking all of my
defenses with time.
You're just like poison, and I just don't get it.
How could something so deadly feel so right?
I'm not sure of what to do.
Its a catch twenty-two?

Cause the cure is found in you.
I don't want it but I do.

You're just like poison.
My affliction, I'm addicted I cant lie.
Kiss me one more time before I die.

Its just not my body (no).
Its my mind.
You don't know how many times I told myself this cant
do (cant do).
And that I don't need you (no I don't need you).
Its so unfair (fair) that I find myself right back in your
care (care).
And whats good is that when you're not always there
(there, there).
You no good for my health, my health.
You're just like poison, whoa, whoa, whoa.
You're just like poison, whoa, whoa, whoa.

You're just like poison.
Slowly moving through my system breaking all of my
defenses with time.
You're just like poison, and I just don't get it.
How could something so deadly feel so right?
I'm not sure of what to do.
Its a catch twenty-two?
Cause the cure is found in you.
I don't want it but I do.
You're just like poison.
My affliction, I'm addicted I cant lie.
Baby kiss me one more time before I die.

You're just like poison.
Slowly moving through my system breaking all of my
defenses with time.
You're just like poison, and I just don't get it.
How could something so deadly feel so right?
I'm not sure of what to do.
Its a catch twenty-two?
Cause the cure is found in you.
I don't want it to.
You're just like poison.
I'm addicted I cant lie.
Kiss me one more time before I die
