Satellites
Flashing by
It's a beautiful state were in
But how can we love in isolation
Think how happy we can be
When we just try

When nothing like we seem
Passion in words are never spoken
You don't know how I bleed
When I leave your side

In your eyes
Love's alive
You've come untied
Cause we're flashing by
Like satellites
Satellites

Take all the rules away
How can we live if we don't change
We're always on display
Let's run and hide

In our eyes
Love's alive
We've come untied
Cause we're flashing by
Like satellites
Satellites

Satellites
If we don't communicate
We'll exist in our own space
We have all the love we need
While we're apart I cannot breathe
