No need to be  
No need to be down here in this corporal sea  
No need to comprehend  
Adapt or pretend  
No envy nor distrust  
In the end - lust

This is sex without touching  
This is love without speech  
This is where the angels in exile  
Like you and I, meet

Give it up and give in

This is love, this is sin  
Give it up and give in  
This is love, this is sin

This is love and I'm infected  
You're the drug that I've had injected

Give it up and give in  
This is love, this is sin  
Give it up and give in  
This is love, this is sin
