Someone put me on a plane  
Goodbye farewell adios my friends  
I need a holiday  
S.a.s is takin' off again

I wanna have my fun  
Where the nights are long  
We wanna go away  
Where the sun will always shine  
We're in heaven 2.9

Or just put me on a train  
Goodbye farewell adios my friend  
Tell her I said hey  
And I might not come home again  
A london queen  
Tokyo teen  
A frisco fag in the disco scene  
A new york doll  
And the berlin boys

Can I ride in your car?  
Goodbye farewell adios my friend  
Vacations at the jet set sunset bay  
My girls are drivin' me insane
