Listen, listen,

These word are delicate and underused.

But it's way to late now,

She said as I walked away.

Whooao whaoao

I never felt the same,

And everything has changed.

Do you remember the nights

That we didn't want to say goodbye?

And all the things you said,

That we could've been,

I never thought that it would come to this.

Whooao whaoao

I never felt the same,

And everything has changed.
