Walk in silence  
Don't turn away in silence  
See the danger  
Always danger  
Endless talking  
Life rebuilding  
Don't walk away

Walk in silence  
Don't turn away in silence  
Your confusion  
My illusion  
Worn like a mask of self-hate  
Confronts and then drops  
Don't walk away

People like you find it easy  
Aching to see  
Walking on air  
Hunting by the rivers, through the streets, every corner  
Abandoned too soon  
Set down with due care  
Don't walk away in silence  
Don't walk away in silence
