I was born a thousand years ago  
Yet I walk the earth today  
I was granted eternal life  
Death is foreign to me  
I am immortal  
My life is non-fatal  
I live to not die  
Forever, lost in eternity  
Living life again and again  
Never to be free  
What happened to me  
Immortality  
A freak of nature  
I watch mankind  
As they fall short of glory  
Unharmd I walk away because  
I am immortal  
I'll be here when they're gone  
Everyone I've loved has past away  
Forever, lost in eternity  
Living life again and again  
Never to be free  
What happened to me  
Immortality  
This curse of immortality  
I'm fighting but it's crippled me  
No explanations  
I'm petrified to be alive  
I'd kill myself but still survive  
Why can't I die  
Forever, lost in eternity  
Living life again and again  
Never to be free
