"Mass Consuming Pigs"

The mass consuming,
The mass polluting,
No one ever cares about the people dying,
Monopolies continue to wipe out the trees,
They're too blind to fucking see,
Why must we live a life of war,
Just so your profits they can soar

In the end,
When there is nothing left,
In the end,
When will you finally see,
That I don't want to be a mass consuming pig,
I will never be, chained down to your leash,

Why must we live a life of war,
Just so your profits they can soar,

I don't want to be, a mass consuming pig,
Plague to humanity.

Why must we live a life of war,
Just so your profits they can soar
