[Comprix / Owens]

With giant claws of steel, it has arrived  
The metal monster, it's now alive  
It came to take our world, and steal your soul  
It will find you, and take control

[Chorus:]

Scream machine - it will bore inside your head  
Scream machine - you will feel it's power

Don't look into it's eyes, or you will die

You know it's on the prowl, it's getting closer  
I see your fear, you should beware  
The metal giant, it will rip your heart out

[Repeat chorus]

Can you feel it, it's getting closer  
It's taking over your world

[Repeat chorus]
