

Beyond Possession "Hard Times"

Visit "[Hard Times](#)" on MotoLyrics.com

The lid has closed for the final time
Possessions I had well they're no longer mine
Preacher friends and family
They're depressed
My life is to begin now I'm possessed

You think I'm gone never more to be seen
Body's decayed think that it's a dream
Come to you in the night do as I please
Try to wake up and I'll cut you to your knees

Earth surrounds my body escapes my soul
To possess other bodies it's my ghastly role
My life is no more I made it that way
I must go on living everyone will pay

You think I'm gone never more to be seen
Body's decayed think that it's a dream
Come to you in the night do as I please
Try to wake up and I'll cut you to your knees

You caused my violent death
Now you're gonna die
You are no longer you
I'm in your mind oh why

Earth surrounds my body escapes my soul
To possess other bodies it's my ghastly role
My life is no more I made it that way
I must go on living everyone will pay
