A death type feeling  
Running through our veins  
Got to find an escape  
From all the real pain  
Got to find someone to realize  
That all things we've been told  
Are nothing but lies

Believed in a being  
Never seen  
But you know he's there  
And when we've no one  
To talk to we know he cares  
'Cause we've got something else  
Something  
Something that we've all seen  
It's inside all our minds  
We've created another being

Life force, it's something we've all seen  
Created in a drug-like dream  
Life force, it works and I believe  
'Cause life force it puts my mind at ease

Well we've gone into a world  
A world that's only ours  
Doing what we believe  
Doing it our own way  
Some believe some turn their backs  
And others they just laugh  
But we've got something  
That gets us through  
All of our lonely days

Muscles they're contracting  
All our minds are spinning  
Emotions they're all flowing  
Voices they're all talking  
We're locked up together  
And everyone is grinning  
We think we've gone mad  
But it's just the beginning

Believed in a being  
Never seen  
But you know he's there  
And when we've no one  
To talk to we know he cares  
'Cause we've got something else  
Something  
Something that we've all seen  
It's inside all our minds  
We've created another being

Life force, it's something we've all seen  
Created in a drug-like dream  
Life force, it works and I believe  
'Cause life force it puts my mind at ease
