Welcome to my darkest lie  
Where I used to feel all fine  
Take a seat  
Enjoy this poem I play for you

You can take all you want to  
Even then when I don't know you  
Just like everybody does

Yeah  
To feel  
To be  
Is all

My own sickness  
Makes me blind  
Leave my feelings all behind

Just look what you have done to me

I will take all I want to  
Even then when you don't want to  
The best things in my life

Always burnin'  
Always turnin'  
Away

To feel  
To be  
Is all

Yeah  
To feel  
To be  
Is all

To feel  
To be  
Is all
