Obsessed - Psychopathic
Raging Desperate
Disgraceful Hate
Lost Perception

Running in circles in room full of glass
Looking back at my life, trying to understand
Take this pain, bleed instead
Take it back and fade away

-Ill ignore the facts and carry on
Trying in vain to forget the memories
I can't speak nor can I ask? I'm lost in my own mind
Dispatched and lost I lure in this painful time

Stay live again
Scattered die instead
Warped-Flesh
Carnage announcing me

All of my wishes are calcified with greed,
I am dying to know the truth,
Digging and finding beneath,
Will never show what's meant to be

This is not a game!
Descending wraith is spreading from inside
Injected breeding hate
And finally this you wont survive

-Ill ignore the facts and carry on
Trying to forget the memories
I can't speak nor can I ask? I'm lost in my own mind
Dispatched and lost I lure in this painful time
