What I gotta do to make you mine?  
What should I be giving myself to find?  
Any clue that you might've left behind  
Baby please give me a sign  
I can never walk away like this  
Giving up on you  
And it's true  
It's the only one thing that I'm sure  
Only one thing that is so pure  
Pure enough my heart can cure  
There's so much I can endure  
Baby can you please come back to me  
To my arms, please  
Finding ways to get you back  
Everyday I'm asking to myself  
What's the reason that you turned your back to me?  
How am I supposed to live?  
Searchin' places you might be  
Anywhere I'll go if I can meet  
You and tell you how I need you here with me  
I can't live without your love

Why can't I just give up and let go?

When it's over and I know

Everywhere I look for high and low

Couldn't find you and it shows that you don't want me  
to come to you

Come to you again

So I tried

Tried to live my life without you here

But what I run into is more fear

Can you hear my words, they're so sincere

That I really need you near

Baby why can't you see this is real?

Please come back, baby

Finding ways to get you back

Everyday I'm asking to myself

What's the reason that you turned your back to me?

How am I supposed to live?

Searchin' places you might be

Anywhere I'll go if I can meet

You and tell you how I need you here with me

I can't live without your love

It's too late to say these words of redemption

I should've known better

If I can turn back the clock, I'll do anything and  
everything

All I need is just one more chance, let me prove my  
love to you

Let me show you, let me tell you how much I miss you

You're all that I need girl

Finding ways to get you back

Everyday I'm asking to myself

What's the reason that you turned your back to me?

How am I supposed to live?

Searchin' places you might be

Anywhere I'll go if I can meet

You and tell you how I need you here with me

I can't live without your love
