I wait for Christmas all year long  
How I wish I that I could only change it  
Take the calendar and rearrange it

Then every day would be so nice  
Candy canes and all the snow that's fallin'  
Every summer would be deck the hallin'

There's a gift for every girl and boy  
Every day at Christmas comes from me to you  
So I pray and I wait  
And I hope that it doesn't come late

Why couldn't it be Christmas everyday?  
Riding around with Santa on his sleigh  
Don't you know if you'll be good just like you should?  
You'll hear those jingle bell ring

Why couldn't it be Christmas every night?  
So that it will meet those twinkling lights  
When you say that everyday's a holiday  
You'll hear those calendars sing

Why couldn't it be Christmas  
Christmas, Christmas everyday?  
Just believe in Christmas  
Christmas, Christmas all the way

And every time I see your eyes  
There's some mistletoe that's right above you  
Where the Christmas gifts say I love you

There some that say it's just a dream  
But close your eyes and you can almost see it  
All you have to do is just believe it

There's a gift for every girl and boy  
Maybe there's a stocking full of Christmas joy  
So I'll pray and I'll wait  
And I'll hope that it doesn't come late

Why couldn't it be Christmas everyday?

Riding around with Santa on his sleigh  
Don't you know if you'll be good just like you should?  
You'll hear those jingle bell ring

Why couldn't it be Christmas every night?  
So that it will meet those twinkling lights  
When you say that everyday's a holiday  
Then you'll hear those calendars sing

Why couldn't it be Christmas  
Christmas, Christmas everyday?  
Just believe in Christmas  
Christmas, Christmas all the way

Whatever kind of weather  
Summer, Spring and Fall will melt together  
Now I can see it clear  
That we can make it happen throughout the year

Why couldn't it be Christmas everyday?  
Riding around with Santa on his sleigh  
Don't you know if you'll be good just like you should?  
You'll hear those jingle bell ring

Why couldn't it be Christmas every night?  
So that it will meet those twinkling lights  
When you say that everyday's a holiday  
Then you'll hear those calendars sing

Why couldn't it be Christmas  
Christmas, Christmas everyday?  
Why couldn't it be Christmas  
Christmas, Christmas everyday?

Why couldn't it be Christmas  
Christmas, Christmas everyday?  
Just believe in Christmas  
Christmas, Christmas all the way  
Why couldn't it be Christmas?
