It's the difference of what you do and don't see  
It's the difference of who you are and could be  
It's the difference of what you say and don't mean

You gotta listen when your heart is whisperin  
When you know you've fallen hard, just get up again  
You gotta leave this little town, try to chase the wind

You gotta do what you gotta do gotta do  
You gotta do what you gotta do

Open invitation  
Pack your bags, start racing  
Even though you can't see  
the difference, the difference

yeah yeah

It's the difference of your today and history  
It's the difference of what is real and make-believe  
It's the difference of when you fail and you achieve

You gotta know that you got something unbelievable  
Just look around at all the people that you love the most  
You gotta chance to show the world that you were  
made to glow

You gotta do what you gotta do, gotta do  
You gotta do what your heart says is good for you  
You gotta do what you gotta do, gotta do  
You gotta do what you gotta do

Open invitation  
Pack your bags, start racing  
Even though you can't see  
The difference, the difference

Hoping buys you some time  
California sunshine  
Wave goodbye and you'll see  
The difference, the difference

you gotta do what you gotta do  
you gotta do what you gotta do  
you gotta do what you gotta do  
yeah
