You left me like a broken doll  
In pieces as I took the fall  
For you, you dumb chump!  
You left me free-falling like space junk  
Burning up in the atmosphere of life

Well I sound like a philosopher  
But I'm a fool who's off her rocker  
'Cause I let you in my heart that one last time

I've had enough, made up my mind  
I'm gonna get up and out and wahhhh!

I love myself today  
Not like yesterday  
I'm cool, I'm calm  
I'm gonna be okay! Uh huh  
I love myself today  
Not like yesterday  
Take another look at me now  
'Cause it's your last look  
Your last look forever

Well look at you you're all puffed up  
In that big red truck- but you're outta luck (this time)  
Well, that's tough  
'Cause I'm on fire- too hot to touch  
With a chatroom full of lovers on the line  
Gonna step right up. Spit shine my soul  
I'm gonna be proud and loud and outta control!

I love myself today  
Not like yesterday  
I'm cool, I'm calm  
I'm gonna be okay! Uh huh  
I love myself today  
Not like yesterday  
Take another look at me now  
'Cause it's your last look  
Your last look forever

I'm lookin' in the mirror and I like what I see:  
I've lost the fear & the horror that's been eating at me  
'Cause being with you is like a hangman's noose  
I was living my life in dead man's shoes

I've had enough. Made up my mind  
I'm gonna get up and out and wahhh!

I love myself today  
Not like yesterday  
I'm cool, I'm calm  
I'm gonna be okay! Uh huh  
I love myself today  
Not like yesterday  
Take another look at me now

I love myself today  
Not like yesterday  
You're dead and gone  
I'm gonna get my way  
I love myself today  
Not like yesterday  
Take another look at me now  
'Cause it's your last look  
Your last look forever!!

I love myself today [x7]
