You live so far away from me,
Fate brought you into my world,
And then one night
Your eyes were burning through my soul,
Now i can't go home anymore...

That night you lay there beside me,
You whispered softly in my ear,
You said that you would always love and wait for me,
Now i can't go home anymore...

Send me a lifeline,
Send me a lifeline,
Send me a lifeline,
Send me a lifeline...

In this life we will never find
Another love like yours and mine
Is there a way that i can show you how i feel?
Words aren't on enough anymore...

Send me a lifeline,
Send me a lifeline,
Send me a lifeline,
Send me a lifeline...

Remember talking on the phone?
You were half a world away...
You promised we would marry,
And i would be your bride.
Please don't go back on your word...

Send me a lifeline,
Send me a lifeline,
Send me a lifeline,
Send me a lifeline...
